### *Here's a short description of what it's about:*

#### **"The E-Myth Solution: More Money, More Life, and More Freedom**

Are you an expert in your field, but less adept at managing your business? You face crucial business challenges every day, such as how best to juggle clients, vendors, personnel, proposals, deadlines and budgets – all while keeping an eye on the bottom line AND trying to have a life. E-Myth Worldwide has been working with small business owners like you for 30 years.

Most business owners say they started their own business in order to have more time, more money and more freedom. Unfortunately, more often, the reality is the opposite—their business does not serve their life, it consumes it.

In order to create a successful business and get more life, you need to learn how to think and act like an entrepreneur. In short, you must stop thinking about the technical work you are doing and start thinking about the company you are creating. Entrepreneurs see the business as the product, rather than a place to go to work everyday."

### **Registration Form - Early Bird Pricing until August 31, 2008**
